

# SAFETY GUARD

Revision: 25 November 2024 12:14 PM Boplan reference: ST0889...

## PRODUCT SPECIFICATIONS

APPLICATION         Environment       Engineered for industrial environments prone to collisions or impacts, it provides clear visibility and 360° signaling. Easily transportable and weatherproof, it is designed for durability and adaptability. Not intended for vehicle impact.         Stands at a prominent 1.75 meters for clear visibility.       Safety yellow color ensures maximum visibility.         Signaling: 360° sign board.       Movable barrier: easily handled and repositioned on industrial sites.         Can be weighted with up to 90L of water or equivalent amount of sand for extra stability.       Durable, weatherproof design for various conditions.         Special cutouts for forklifts and pallet trucks to facilitate handling.       Rounded shapes with no protruding parts reduce injury risk.         Impact-absorbing polymer construction for enhanced safety.       MATERIAL         Safety Guard       Rexilene <sup>®</sup> - UV resistant - Fire class E <sup>®</sup> - Non conductive - Impervious to most chemicals <sup>**</sup> Sign board       Polypropylene

\*Classification according to EN 13501-1:2007 +A1:2009 - Fire classification of construction products and building elements.
\*\*Ask your local sales office for resistance to specific chemicals.

#### FEATURES AND FUNCTIONALITY - SAFETY GUARD

SIZE	
Height	1750 mm
Max section	Ø889 mm
Weight	23 kg

REQUIREMENTS				
Operational temperature	-10°C up to +40°C			
ACCESSORIES				
Ratchet strap with bracket	Strap, 2 brackets, and fixations, allowing easy attachment of signs.			
Sign Board Recommendations	Dimension: 500x500 mm or Ø600 mm
