SAFETY TOTEM

POLYMER SAFETY CONE FOR OPTIMAL PROTECTION AND SIGNALING

The **SAFETY TOTEM** ensures effective protection of dangerous obstacles on the work site where there is traffic from forklift trucks, trucks, bulldozers or other (heavy) rolling stock. Due to its height of 2m40 and striking yellow color, the totem also has a clear signaling function in which drivers and employees are remotely alerted to a possible danger even from e.g. a truck cabin. The mobile totem has a large panel on the front on which all kinds of messages can be communicated. Large black arrows indicate which side to pass the totem. The totem can be weighted with water (up to a maximum level see*) for optimal stability and has special recesses for easy transport with a forklift.

LIFTING EYE IN GALVANIZED STEEL

For quick and easy installation

EXTRA LARGE DESIGN

Clearly visible from e.g. truck cabin (2400mm H)

REPLACEABLE ARROWS

For indication along which the totem must be passed

SAFETY YELLOW

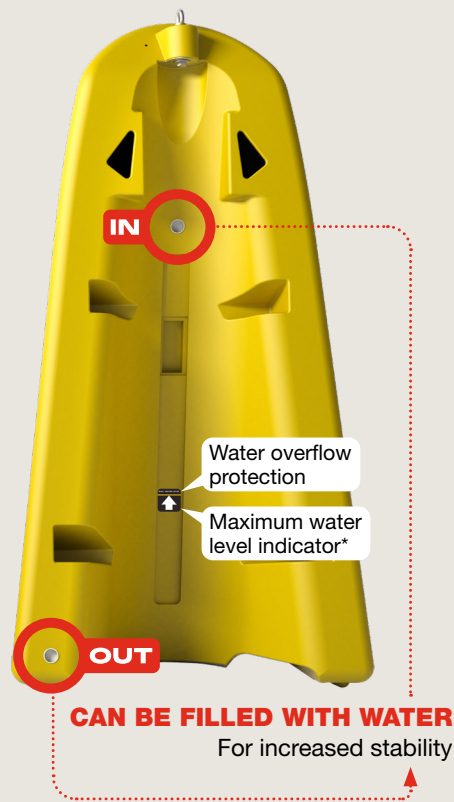

For maximum visibility (UV resistant polymer)

SIGNAGE BOARD

display your message here (1030mm H x 1370mm W)

SPECIAL RECESSES

For easy transportation with fork lift

APPLICATIONS / TYPICAL ENVIRONMENTS:

- Loading and unloading platforms
- Transport and logistics centers
- Distribution centers
- Warehouses and storage facilities
- Workplace areas with vehicle traffic
- Areas where special attention is required
