SWING GATE

SAFETY GATE WITH LATERAL OPENING

SWING GATE

SAFETY GATE WITH LATERAL OPENING

The SG Swing Gate offers many advantages! This robust, impact-resistant safety gate for industrial applications is made entirely from plastic (polymer). Other components, including the hinge and spring mechanism and the screws, are galvanized as standard and optionally available in stainless steel (SS 304). This makes the SG Swing Gate multi-purpose and weather-resistant: this safety gate can be combined in a modular way with HP handrails, TB collision protection and BO 200R or BO200F bollards for both indoor and outdoor applications.

LARGE SIGNALIZATION BOARD

warns employees and visitors of potential danger

GATE STOP (INCLUDED)

to prevent the gate from swinging out in one direction if required

CLOSING BLOCK (INCLUDED)

To prevent the gate from being fixed in the open position

WHEEL SUPPORT

is supplied as standard to offer additional support for safety gates longer than 1,5 m

FEATURES

- Robust, impact-resistant safety gate with lateral opening
- Suitable for outdoor use (option stainless steel components SS 304)
- Durable, resistant to intensive use
- Ergonomic design
- Can be combined with HP handrails, TB collision protection and BO200R and BO200F protection posts
- Large signage board
- Closing block and gate stop
- Support wheel for safety gates longer than 1,5 meters

APPLICATIONS / TYPICAL ENVIRONMENTS

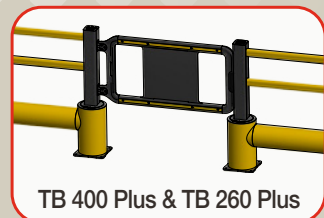

- Closing aisles at zones with incoming and outgoing goods
- Clear demarcation: indication of start / end point of pedestrian zones (warning function)
- Salty / corrosive environments (food industry, coastal region, ...)
- Closing access ways of machine rooms

4 POSSIBLE COMBINATIONS

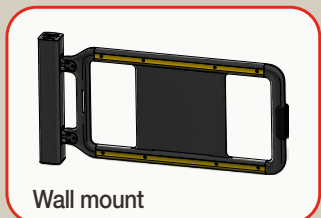

HP Plus

TB 400 Plus & TB 260 Plus

BO200R or BO200F

Wall mount
