KP PROTECTOR

COLUMN PROTECTION FOR LOAD-BEARING POSTS AND COLUMNS

The FLEX IMPACT® **KP PROTECTOR** is a round column protector designed to safeguard load-bearing pillars and columns in various industrial settings. This protector is made up of two parts and requires no tools for installation. It fits snugly around the column, offering neat, adaptable, and highly visible protection.

The KP PROTECTOR is made from flexible, durable polyethylene, offering a protective layer around vulnerable columns. These protectors absorb collision impacts, protecting both the vehicle and structural elements. Air channels inside the KP PROTECTOR release air at a controlled rate during collisions, maintaining impact resistance and reducing damage.

By lessening impact force, the KP PROTECTOR effectively reduces the risk of structural damage to columns, preserving the integrity of industrial buildings. These protectors come in multiple diameters and sizes.

ICE FLEX®

Suitable for temperatures as low as -22°F

FEATURES AND BENEFITS

FAST INSTALLATION
WITH VELCRO® STRIPS

RESISTANT TO
CHEMICALS
AND UV RAYS

AIR CHANNELS

SHAPES AND SIZES

TYPICAL ENVIRONMENTS

Designed to protect pillars, posts, and columns in:

- Warehouses and storage facilities
- Distribution centers
- Transport & logistics centers
- Logistics, supply chain, and material handling industries
- Parking facilities

ENHANCED VISIBILITY

The KP PROTECTOR comes in a distinctive RAL 1003 yellow (signal yellow), ensuring high visibility in any setting. KP PROTECTORS with a height of 20 inches are also available in red, ideal for use around columns or posts with a fire extinguisher or hose reel. This enhances protection and visibility.

PROTECTION OF INFRASTRUCTURE FROM PALLET TRUCKS

The FLEX IMPACT® **CP CORNER PROTECTOR** offers impact-resistant corner protection for walls, partitions, small posts, and machinery in your business, garage, warehouse, or shop. The CP CORNER PROTECTOR is part of the flexible and durable FLEX IMPACT® range, available in both yellow and black. Lightweight and easy to install, the CP CORNER PROTECTOR ensures protection of the most vulnerable ends and corners of your walls and partitions.

CP CORNER PROTECTOR 500 J

PROTECTION OF INFRASTRUCTURE AND PEOPLE AGAINST MINOR COLLISIONS

The FLEX IMPACT® **SOFT COLUMN COVER** uses 2 inches of impact-absorbing foam to shield columns from impacts with small mobile equipment and protect people from sharp metal posts.

A height of 71 inches with a distinctive yellow color, ensures SOFT COLUMN COVER with optimal visibility. Installation is fast and simple with Velcro straps. Their durable, water- and UV-resistant PVC cover is easy to clean. Additionally, it is available in 3 sizes for an ideal fit.

SOFT COLUMN COVERS

FLEX IMPACT® COLUMN AND CORNER PROTECTION

ONE-SIZE-FITS-ALL COLUMN PROTECTION

The FLEX IMPACT® CP UNIVERSAL, featuring a modular, fence-like structure, protects masts, load-bearing pillars, and large columns from collisions. Thanks to its modular, standardized design, it fits columns of any size. Horizontal bars can be trimmed to fit the column.

CP UNIVERSAL belongs to the FLEX-IMPACT® series and, like other products in this line, is highly impact-resistant. With a high absorption capacity, this column protection withstands the force of a collision. These durable, low-maintenance polymer column protections come in bright signal yellow. After impact, the CP UNIVERSAL column protection retains its shape, appearance, and properties.
